City of Gary Lake Michigan Shoreline Management Plan

This Indiana Lake Michigan Coastal Grant provided funding for the development of a comprehensive shoreline management plan for Gary's beaches and associated natural areas.

The Gary Parks Department, Planning Department, and Environmental Affairs Department involved all interested stakeholders and local community residents including but not limited to, environmental organizations, civic organizations, local schools and universities, the Indiana Dunes National Lakeshore, and the Indiana Dunes State Park to develop a plan that provided a guide for the implementation of best management practices to protect, restore, and maintain shoreline resources in conjunction with public access, recreational uses, and public safety.
